Autore	Kelly Christopher <1964->
Titolo	Ruling the later Roman Empire [[electronic resource] /] / Christopher Kelly
Pubbl/distr/stampa	Cambridge, MA, : Belknap Press of Harvard University Press, 2004
ISBN	0-674-03945-9
Descrizione fisica	341 p
Collana	Revealing antiquity ; ; 15
Disciplina	937/09
Soggetti	Elite (Social sciences) - Rome Elite (Social sciences) - Byzantine Empire Electronic books. Rome Politics and government 284-476 Byzantine Empire Politics and government To 527 Rome Officials and employees Byzantine Empire Officials and employees
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 301-325) and index.
Nota di contenuto	Frontmatter -- Contents -- Acknowledgments -- Prologue: First Thoughts -- Part I . The Bureaucrat's Tale -- Introduction: John Lydus: A Man and His Book -- 1 All the Prefect's Men -- 2 The Competition for Spoils -- Part II. Rulers and Ruled -- Introduction: Passages from the Principate to Late Antiquity -- 3 Standing in Line -- 4 Purchasing Power -- 5 Autocracy and Bureaucracy -- Epilogue: Last Judgments -- Notes -- Bibliography -- Index
Sommario/riassunto	In this highly original work, Christopher Kelly paints a remarkable picture of running a superstate. He portrays a complex system of government openly regulated by networks of personal influence and the payment of money. Focusing on the Roman Empire after Constantine's conversion to Christianity, Kelly illuminates a period of increasingly centralized rule through an ever more extensive and intrusive bureaucracy. The book opens with a view of its times through the eyes of a high-ranking official in sixth-century Constantinople, John Lydus. His <i>On the Magistracies of the Roman State</i> , the only memoir of its kind to come down to us, gives an impassioned and

revealing account of his career and the system in which he worked. Kelly draws a wealth of insight from this singular memoir and goes on to trace the operation of power and influence, exposing how these might be successfully deployed or skillfully diverted by those wishing either to avoid government regulation or to subvert it for their own ends. Ruling the Later Roman Empire presents a fascinating procession of officials, emperors, and local power brokers, winners and losers, mapping their experiences, their conflicting loyalties, their successes, and their failures. This important book elegantly recaptures the experience of both rulers and ruled under a sophisticated and highly successful system of government.

Description based upon print version of record.

**Nota di bibliografia**

Includes bibliographical references.

**Nota di contenuto**

Title page; Preface; Contents; The Wide Band Sparse Element Array

Antennas - WiSE project: an overview; The mathematics that models wavefield physics in engineering applications - A voyage through the landscape of fundamentals; Connected arrays of dipoles for telecom and radar applications: the solution for the common mode problem; Sunflower antenna: synthesis of sparse planar arrays for satellite applications; The relativity of bandwidth - the pursuit of truly ultra wideband radiators; Reconfigurability, new materials: future challenges for antenna design and simulation

Active arrays for satellite applications: the quest for increased power efficiency; Antenna front-ends for mobile satellite terminals: design & realisation; Receiving array systems for radio astronomy; Puzzling radiators - functionality enhancement by means of shared aperture antennas

**Sommario/riassunto**

In recognition of the need for continuous and sustained effort in the field of antenna engineering, the WiSE project (Wide Band Sparse Element Array Antennas) was initiated in 2004 to assemble a catalogue of wide-band radiators. This book collects papers which offer a retrospective of the WiSE project's main achievements.
