Sommario/riassunto	Hauptbeschreibung When at the turn of the 1980, the face of the political world was largely remodeled with the vanishment of classical

East and West blocs, the economical wasteland created by the failed socialist planned economic system constituted a fascinating research pasture for economists of all disciplines - especially macroeconomists and specialists for economic politics. At universities, new faculties for transformation studies were created. Authors like Rodrick elucidated the reasons for the acute period of the COMECON alliance in form of the Soviet trade shock, de Melo,
