

1. Record Nr.	UNINA9910459365703321
Autore	Goggans Jan
Titolo	California on the breadlines [[electronic resource]] : Dorothea Lange, Paul Taylor, and the making of a New Deal narrative / / Jan Goggans
Pubbl/distr/stampa	Berkeley, CA, : University of California Press, 2010
ISBN	1-282-69771-4 9786612697715 0-520-94589-1
Descrizione fisica	1 online resource (363 p.)
Disciplina	770.92/2
Soggetti	Women photographers - United States Social scientists - United States Rural poor - United States - History Depressions - 1929 - United States Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- CONTENTS -- ILLUSTRATIONS -- ACKNOWLEDGMENTS -- Prologue. Uncommon Ground -- Chapter 1. From Belleau Wood to Berkeley -- Chapter 2. The Magnet of the West -- Chapter 3. Labor on the Land -- Chapter 4. Far West Factories -- Chapter 5. A New Social Order -- Chapter 6. Women on the Breadlines -- Chapter 7. An American Exodus -- Conclusion. Can the Subaltern Speak? -- NOTES -- INDEX
Sommario/riassunto	California on the Breadlines is the compelling account of how Dorothea Lange, the Great Depression's most famous photographer, and Paul Taylor, her labor economist husband, forged a relationship that was private--they both divorced spouses to be together--collaborative, and richly productive. Lange and Taylor poured their considerable energies into the decade-long project of documenting the plight of California's dispossessed, which in 1939 culminated in the publication of their landmark book, <i>American Exodus: A Record of Human Erosion</i> . Jan Goggans blends biography, literature, and history to retrace the paths that brought Lange and Taylor together. She shows how American

Exodus set forth a new way of understanding those in crisis during the economic disaster in California and ultimately informed the way we think about the Great Depression itself.

Nota di contenuto

ACP with signals -- Functional extensions to prolog: Are they needed? -- Narrowing and resolution in logic-functional programming languages -- Nondeterministic algebraic specifications and nonconfluent term rewriting -- OBJ: Programming with equalities, subsorts, overloading and parameterization -- Logic programming with polymorphically order-sorted types -- Integrating logic programming and equational specification of abstract data types -- Narrowing with built-in theories -- A completion procedure for hierarchical conditional rewriting systems -- An effective method for handling initial algebras -- Boolean valued models and incomplete specifications -- Types, modularisation and abstraction in logic programming -- Translating algebraic specifications to Prolog programs: A comparative study -- Rewrite rule systems for modal propositional logic -- A characterization of irreducible sets modulo left-linear term rewriting systems by tree automata -- Functional data term models and semantic unification -- Modular algebraic specifications -- Proving inductive theorems based on term rewriting systems -- Jungle evaluation for

efficient term rewriting -- A new quasi-reducibility testing algorithm and its application to proofs by induction -- Fuzzy reasoning based on f-horn clause rules -- Babel: A functional and logic programming language based on constructor discipline and narrowing -- Refined compilation of pattern-matching for functional languages -- Narrowing in partial conditional equational theories -- Solving equations in an equational language -- Nonstandard logics of recursive programs and denotational semantics. .

Sommario/riassunto

This volume contains the proceedings of the First International Workshop on Algebraic and Logic Programming held in Gaussig (German Democratic Republic) from November 14 to 18, 1988. The workshop was devoted to Algebraic Programming, in the sense of programming by algebraic specifications and rewrite rule systems, and Logic Programming, in the sense of Horn clause specifications and resolution systems. This includes combined algebraic/logic programming systems, mutual relations and mutual implementation of programming paradigms, completeness and efficiency considerations in both fields, as well as related topics.
