Sommario/riassunto	The demand for work-ready graduates, who are familiar with organizational practices in the workplace is increasing, and so the need for greater work integrated learning (WIL) is a growing concern for the education sector. With the globalization of higher education and the

cultural and linguistic challenges this brings, WIL has become a core strategic issue for many organizations. Examining WIL as a process of integration between workplaces, higher education institutions, government, business and industry, this book includes: Strategies for managing work integrated learning exp
