

1. Record Nr.	UNINA9910459422903321
Titolo	Closed-loop supply chains : new developments to improve the sustainability of business practices // editors, Mark E. Ferguson, Gilvan C. Souza
Pubbl/distr/stampa	Boca Raton : , : Auerbach Publications, , 2010
ISBN	0-429-25056-8 1-4200-9526-9
Edizione	[1st edition]
Descrizione fisica	1 online resource (260 p.)
Collana	Supply chain integration series
Altri autori (Persone)	FergusonMark <1969-> SouzaGilvan C
Disciplina	658.5
Soggetti	Business logistics Business logistics - Environmental aspects Remanufacturing Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front Cover; Contents; Preface; Acknowledgments; Editors; Contributors; Chapter 1: Commentary on Closed-Loop Supply Chains; Part I: Strategic Considerations; Chapter 2: Strategic Issues in Closed-Loop Supply Chains with Remanufacturing; Chapter 3: Environmental Legislation on Product Take-Back and Recovery; Chapter 4: Product Design Issues; Part II: Tactical Considerations; Chapter 5: Designing the Reverse Logistics Network; Chapter 6: Product Acquisition, Grading, and Disposition Decisions; Chapter 7: Production Planning and Control for Remanufacturing Chapter 8: Market for Remanufactured Products: Empirical Findings Part III: Industry Characteristics and Case Studies; Chapter 9: Examples of Existing Profitable Practices in Product Take-Back and Recovery; Chapter 10: Reuse and Recycling in the Motion Picture Industry; Chapter 11: Reverse Supply Chain in Hospitals: Lessons from Three Case Studies in Montreal; Part IV: Interdisciplinary Research on Closed-Loop Supply Chains; Chapter 12: Interdisciplinarity in Closed-Loop Supply Chain Management Research

Chapter 13: Empirical Studies in Closed-Loop Supply Chains: Can We Source a Greener Mousetrap?Chapter 14: Conclusion and Future Research Directions; Index; Back Cover

Sommario/riassunto

Closed-loop supply chain activities such as remanufacturing, recycling, dismantling for spare parts, and reverse logistics have helped many companies tap into different revenue streams by finding secondary markets for their products, all while reducing their overall carbon footprint. This book discusses various closed-loop supply chain processes.
