

1. Record Nr.	UNINA9910459431403321
Titolo	PNEC [[electronic resource] ] : the French Coastal Environment Research Programme : overview of 1999-2002 activities // editors, Jacques Clavier, Michel Joanny, Francois Carlotti
Pubbl/distr/stampa	Plouzane, : Ifremer Versailles, : Diffusion, INRA Editions, c2006
ISBN	2-7592-0264-X
Descrizione fisica	1 online resource (314 p.)
Collana	Bilans & prospectives, , 1279-8339
Altri autori (Persone)	ClavierJacques JoannyMichel CarlottiFrancois
Soggetti	Coastal ecology - France Environmental monitoring - France Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Contents""; ""Foreword""; ""Overall presentation""; ""Introduction""; ""Eight worksites""; ""Eastern Channel and Southern Bight of the North Sea worksite""; ""Bay of Seine worksite""; ""Bay of Mont-Saint-Michel worksite""; ""Bay of Biscay worksite""; ""Gulf of Lion worksite""; ""Mediterranean lagoons worksite""; ""New Caledonia lagoons worksite""; ""French Guiana worksite""; ""Seven topic research actions (TRA)""; ""TRA 1. Biogeochemical cycles in temperate and tropical coastal environments since the last climatic cycle"" ""TRA 2. Population dynamics: hydrodynamic structures and biological cycles"" ""TRA 3. Toxic or harmful algal blooms""; ""TRA 4. Effect of hydroclimatic factors on the variability of ecosystems in the coastal environment""; ""TRA 5. Microorganisms and the coastal environment""; ""TRA 6. Dynamic equilibrium in the coastal zone""; ""TRA 7. Sediment dynamics""; ""The PNEC organization in 2002""; ""Presentation generate""; ""Introduction""; ""Huit chantiers""; ""Chantier Manche orientale - sud de la mer du Nord""; ""Chantier baie de Seine""; ""Chantier baie du Mont-Saint-Michel""

""ART 5. Microorganismes et environnement cotier""""ART 6.  
Gouvernance environnementale et patrimoine cotier""; ""ART 7.  
Dynamique sedimentaire""; ""Chapter I - Bay of Seine worksite"";  
""General presentation""; ""Scientific programme""; ""Participants"";  
""Data banking""; ""Main results""; ""Water column""; ""Conclusion and  
perspectives""; ""Chapter II - Bay of Biscay worksite""; ""General  
presentation""; ""Participants and projects""; ""Main results""; ""A better  
knowledge of hydrodynamism and water masses evolutions"";  
""Expertise and services for other disciplines""  
""The river plumes and their consequences""""Coastal upwellings,  
accres and a paradoxical central area""; ""The limits of simultaneous  
observation of hydrological structures and distribution of pelagic  
fishes""; ""Structure of the benthic communities and foodweb analysis"";  
""Towards a better understanding of time evolution of harvested  
species""; ""Chapter III - Gulf of Lion worksite""; ""General  
presentation""; ""Scientific programme""; ""Main results""; ""The Rhone  
river and the plume""; ""Circulation and distribution of elements at  
mesoscale""; ""Pelagic production and vertical fluxes""  
""Benthic response and exchanges at the water-sediment interface""
