| Sommario/riassunto      | The reinvigorated debate on imperialism in the last two decades focuses on the means by which Euro-American capital is currently   |

spread around the globe and the different ways it pillages the wealth of the developing countries. The Economic Partnership Agreements being foisted on the African, Caribbean and Pacific countries by the European Union, however, has been under the radar of the debate on imperialism. This book draws on the experiences of the Caribbean Forum-EU EPA to fill that void by bringing into focus the economic partnership agreement as a conduit of European imperialism.
