| Sommario/riassunto | First published in 1987, this Routledge Revival reissues the first systematic and integrated analysis of working time and employment, reaching to the core elements of a vital area of labour economics. It offers both a comprehensive analysis of the impact of workweek |

reductions on employment and hours as well as a thorough coverage of part-time employment, temporary lay-offs, short-time working, labour subsidies, social security funding, mandatory and early retirement and collective bargaining. This book provides the first comprehensive attempt to examine carefully the key ec
