Sommario/riassunto	An industry insider reveals the inner workings of our financial system and the agencies who attempt to control it During his dozen years as an SEC attorney, author Richard Sauer opened and supervised some of its most notable financial cases-investigations that took him to a dozen countries and returned hundreds of millions of dollars to American

investors. While a partner at a major law firm and, later, a hedge fund manager, he saw firsthand the follies and failures of our system. Now, in *Selling America Short*, he shares his extraordinary experiences with you. *Selling Amer*
