Nota di contenuto	Security Analysis and Business Valuation on Wall Street, Second Edition: A Comprehensive Guide to Today's Valuation Methods; Contents; Preface; Part One: The Investing Environment; Part Two: Performing the Analysis and Writing the Research Report; Part Three: Valuation and the Investment Decision; Part Four: Special Cases; Part Five: In Conclusion; Notes; About the Author; Index
Sommario/riassunto	An insider's look at security analysis and business valuation, as practiced by Wall Street, Corporate America, and international businessesTwo major market crashes, numerous financial and accounting scandals, growth in private equity and hedge funds, Sarbanes Oxley and related regulations, and international developments changed security analysis and business valuation substantially over the last fourteen years. These events necessitated a second edition of this modern classic, praised earlier by Barron's as a ""welcome successor to Graham and Dodd"" and used in the global CF

2.	Record Nr.	UNISALENTO991001560059707536
	Autore	Ross, Sheldon M.
