Sommario/riassunto

"Over the centuries, the messianic tradition has provided the language through which modern Jewish philosophers, socialists, and Zionists envisioned a utopian future. Michael L. Morgan, Steven Weitzman, and an international group of leading scholars ask new questions and provide new ways of thinking about this enduring Jewish idea. Using the writings of Gershom Scholem, which ranged over the history of messianic belief and its conflicted role in the Jewish imagination, these essays put aside the boundaries that divide history from philosophy and religion to offer new perspectives on the role and relevance of messianism today"--

Sommario/riassunto

Having spent nearly a decade following the lives of formerly trafficked men and women, Denise Brennan recounts in close detail their flight from their abusers and their courageous efforts to rebuild their lives. At once scholarly and accessible, her book links these firsthand accounts to global economic inequities and under-regulated and unprotected

workplaces that routinely exploit migrant laborers in the United States. Brennan contends that today's punitive immigration policies undermine efforts to fight trafficking. While many believe trafficking happens only in the sex trade, Brennan shows that across low-wage labor sectors--in fields, in factories, and on construction sites--widespread exploitation can lead to and conceal forced labor. *Life Interrupted* is a riveting account of life in and after trafficking and a forceful call for meaningful immigration and labor reform.
