| 1. Record Nr. | UNINA9910459569903321 |
| Autore | Thornham Helen |
| Titolo | Ethnographies of the videogame [[electronic resource]] : gender, narrative and praxis / / Helen Thornham |
| Pubbl/distr/stampa | Farnham, Surrey, England ; ; Burlington, Vt., : Ashgate, c2011 |
| ISBN | 1-317-14064-8 1-283-12870-5 9786613128706 0-7546-9940-4 |
| Descrizione fisica | 1 online resource (218 p.) |
| Disciplina | 306.4/87 |
| Soggetti | Video games Video games - Social aspects Electronic books. |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Cover; Contents; List of Figures; Acknowledgements; 1 Introductions: Videogames, Gender, Ethnography; 2 Constructing a Gendered Gaming Identity; 3 Articulating Pleasure: Gender, Technology and Power; 4 The Practices of Gameplay; 5 Bodies and Action; 6 Pleasure and the Imagined Gamer; 7 Conclusions: Towards a Theory of Domestic Videogaming; Appendix 1: Index and Statistics of Houses and Household Members; Appendix 2: Index of Interviews; Bibliography; Index |
| Sommario/riassunto | Ethnographies of the Videogame uses the medium of the videogame to explore wider significant sociological issues around new media, interaction, identity, performance, memory and mediation. The book is particularly concerned with issues of agency and power, identifying strong correlations between perceptions of gaming and actual gaming practices, as well as the reinforcement, through gaming, of established power relationships within households. Thornham provides pertinent and reflexive commentary highlighting the relationships of gender and power in gaming practice. |

| Descrizione fisica | 1 online resource (353 p.) |
| Collana | Wiley Series in Probability and Statistics THEi Wiley ebooks |
| Disciplina | 519.5/37 |
| Soggetti | Correlation (Statistics) Mathematical statistics |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references at the end of each chapters and index. |
| Nota di contenuto | Cover; Title Page; Copyright; Dedication; Contents; Preface; Acknowledgements; About the Companion Website; Chapter 1 Introduction; 1.1 Historical Remarks; 1.2 Ontological Remarks; 1.2.1 Forms of data representation; 1.2.2 Types of data statistics; 1.2.3 Principal aims of statistical data analysis; 1.2.4 Prior information about data distributions and related approaches to statistical data analysis; References; Chapter 2 Classical Measures of Correlation; 2.1 Preliminaries; 2.2 Pearson's Correlation Coefficient: Definitions and Interpretations; 2.2.1 Introductory remarks 2.2.2 Correlation via regression 2.2.3 Correlation via the coefficient of determination; 2.2.4 Correlation via the variances of the principal components; 2.2.5 Correlation via the cosine of the angle between the variable vectors; 2.2.6 Correlation via the ratio of two means; 2.2.7 Pearson's correlation coefficient between random events; 2.3 Nonparametric Measures of Correlation; 2.3.1 Introductory remarks; 2.3.2 The quadrant correlation coefficient; 2.3.3 The Spearman rank correlation coefficient; 2.3.4 The Kendall -rank correlation coefficient; |

2.3.5 Concluding remark

2.4 Informational Measures of Correlation2.5 Summary; References;
Chapter 3 Robust Estimation of Location; 3.1 Preliminaries; 3.2 Huber's
Minimax Approach; 3.2.1 Introductory remarks; 3.2.2 Minimax variance
M-estimates of location; 3.2.3 Minimax bias M-estimates of location;
3.2.4 L-estimates of location; 3.2.5 R-estimates of location; 3.2.6 The
relations between M-, L- and R-estimates of location; 3.2.7 Concluding
remarks; 3.3 Hampel's Approach Based on Influence Functions; 3.3.1
Introductory remarks; 3.3.2 Sensitivity curve; 3.3.3 Influence function
and its properties
3.3.4 Local measures of robustness3.3.5 B- and V-robustness; 3.3.6
Global measure of robustness: the breakdown point; 3.3.7
Redescending M-estimates; 3.3.8 Concluding remark; 3.4 Robust
Estimation of Location: A Sequel; 3.4.1 Introductory remarks; 3.4.2
Huber's minimax variance approach in distribution density models of a
non-neighborhood nature; 3.4.3 Robust estimation of location in
distribution models with a bounded variance; 3.4.4 On the robustness
of robust solutions: stability of least informative distributions; 3.4.5
Concluding remark; 3.5 Stable Estimation; 3.5.1 Introductory remarks
3.5.2 Variance sensitivity3.5.3 Estimation stability; 3.5.4 Robustness of
stable estimates; 3.5.5 Maximin stable redescending M-estimates;
3.5.6 Concluding remarks; 3.6 Robustness Versus Gaussianity; 3.6.1
Introductory remarks; 3.6.2 Derivations of the Gaussian distribution;
3.6.3 Properties of the Gaussian distribution; 3.6.4 Huber's minimax
approach and Gaussianity; 3.6.5 Concluding remarks; 3.7 Summary;
References; Chapter 4 Robust Estimation of Scale; 4.1 Preliminaries;
4.1.1 Introductory remarks; 4.1.2 Estimation of scale in data analysis;
4.1.3 Measures of scale defined by functionals
4.2 M- and L-Estimates of Scale
