Sommario/riassunto	No longer relegated to reporting on society happenings or household hints, women columnists have over the past twenty years surged across the boundary separating the ""women's"" or ""lifestyle"" sections and into the formerly male bastions of the editorial, financial, medical, and ""op-ed"" pages. Where men previously controlled the nation's new organizations, were the chief opinion givers, and defined what is newsworthy, many women newspaper columnists are now nationally syndicated and tackle the same subjects as their male counterparts, bringing with them distinctive styles and viewpoints.Th
