

1. Record Nr.	UNINA9910459625303321
Titolo	Special economic zones in Asian market economies [[electronic resource] /] / edited by Connie Carter and Andrew Harding
Pubbl/distr/stampa	London ; ; New York, NY, : Routledge, 2010
ISBN	1-282-88229-5 9786612882296 0-203-84186-7
Edizione	[1st ed.]
Descrizione fisica	1 online resource (203 p.)
Collana	Routledge studies in the growth economies of Asia
Altri autori (Persone)	CarterConnie HardingAndrew <1950->
Disciplina	338.8/7
Soggetti	Economic zoning - Asia Enterprise zones - Asia Electronic books. Asia Economic policy 21st century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Book Cover; Title; Copyright; Contents; Preface and acknowledgements; Contributors; Abbreviations and acronyms; 1 SEZs: Policy incubators or catalysts for development?; 2 SEZs: A policy tool in search of a new agenda?; 3 SEZs and China's attempt to govern the labour market by law; 4 A tale of two Chinese SEZs: From exogenous to sustainable endogenous growth?; 5 Special economic zones and improved environmental management in China; 6 Special economic zones and freeports: Challenges and opportunities in the bases conversion and development experience in the Philippines 7 Iskandar Malaysia and Malaysia's dualistic political economy8 SEZs in India: An economic policy or a political intervention?; 9 The Indian Special Economic Zones Act 2005: Implications for modelling the law and governance of SEZs; Resources; Index
Sommario/riassunto	Special Economic Zones (SEZs) have proliferated rapidly during the past decade and are set to multiply in the next - embracing not only Asia and Europe but also Africa and the Americas. This book is the first to examine the Asian experience of SEZs in China, India, Malaysia and the

Philippines. SEZs are usually clearly defined geographic areas in which national, provincial or local governments use policy tools (such as tax holidays; improved infrastructure; less onerous or differentiated regulations and incentives other than those generally available in the rest of the country) to attract a

2. Record Nr.	UNINA9910139789603321
Autore	Overturf Ken
Titolo	Molecular research in aquaculture [[electronic resource] /] / Ken Overturf
Pubbl/distr/stampa	Ames, Iowa, : Wiley-Blackwell, c2009
ISBN	1-282-37153-3 9786612371530 0-8138-0737-9 0-8138-0742-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (407 p.)
Altri autori (Persone)	OverturfKen
Disciplina	639.3 639.8
Soggetti	Aquaculture - Research Molecular biology - Research Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Molecular Research in Aquaculture; Contents; Preface; List of Contributors; Chapter 1. Convergence of Aquaculture and Molecular Biology; Chapter 2. Basic Molecular Laboratory Methods; Chapter 3. Quantitative PCR; Chapter 4. Aquaculture-Related Applications of DNA Microarray Technology; Chapter 5. Aquaculture Genomics; Chapter 6. Proteomics in Aquaculture; Chapter 7. The Role of Model Organisms in Aquaculture Research: Transient and Permanent Advantages; Chapter 8. Clonal Lines and Chromosome Manipulation for Aquaculture Research and Production Chapter 9. Issues and Methodology for Development of Transgenic Fish

for Aquaculture with a Focus on Growth Enhancement Chapter 10. Molecular Regulation of Intermediary Metabolism Focusing on Utilization of Dietary Carbohydrates; Chapter 11. Muscle Regulation; Chapter 12. Microbial Genomics of Aquaculture Pathogens; Chapter 13. Control of Reproduction; Index

---

Sommario/riassunto

Molecular Research in Aquaculture Molecular research and biotechnology have long been fields of study with applications useful to aquaculture and other animal sciences. Molecular Research in Aquaculture looks to provide an understanding of molecular research and its applications to the aquaculture industry in a format that allows individuals without prior experience in this area to learn about and understand this important field. Molecular Research in Aquaculture opens with an introductory chapter giving background information on the aquaculture industry and the
