Using Judgement The Emotional Handicap

Sommario/riassunto

The brand new book from the international bestselling self-help author Robert Kelsey's internationally bestselling self-help books have helped tens of thousands of people overcome fear of failure and under confidence. Now Robert is back and is here to debunk the ever pervasive myths around the trail-blazing rebel outsider... Our culture celebrates outsiders while - in reality - slamming the door in their face. The modern world craves innovation while alienating original thinkers. It encourages creativity while shutting-out all but a privileged few from individualistic expression. What a waste
