Soggetti	Crime - Sociological aspects Neighborhoods Criminology Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Battin tests collective efficacy theory by accounting for additional measures of informal social control and social ties. Past social disorganization theory and collective efficacy theory research utilized community members to measure community levels of informal social control and social ties. Battin's work deviates from the previous methodology and incorporates real estate agents as resident proxies to test collective efficacy theory and its relationship with perceptions of crime. The data provide support for collective efficacy theory and the use of resident proxies.

2. Record Nr.	UNISA996571856803316
Autore	Mitchell Mary Niall

Nota di contenuto	Emigration : a good and delicious country -- Reading race : rosebloom and pure white, or so it seemed -- Civilizing missions : Miss Harriet W. Murray, Elsie, and Puss -- Labor : Tillie Bell's song -- Schooling : we ought to be one people -- Conclusion : some mighty morning.
Sommario/riassunto	The end of slavery in the United States inspired conflicting visions of the future for all Americans in the nineteenth century, black and white, slave and free. The black child became a figure upon which people projected their hopes and fears about slavery's abolition. As a member of the first generation of African Americans raised in freedom, the black child-freedom's child-offered up the possibility that blacks might soon enjoy the same privileges as whites: landownership, equality, autonomy. Yet for most white southerners, this vision was unwelcome, even frightening. Many northerners, too,
