Sommario/riassunto

This volume delivers a cutting-edge analysis on vernacular globalization, or how local forces mediate global trends. It delves into the vital facets of the quest for global competitiveness, including: Global university rankings World-class universities University mergers Quality assurance Cross-border higher education International education hubs. The authors situate their topics within current international scholarship and demonstrate the myriad avenues through which local actors in higher education may respond to global competition. They pose critical questions about the impact of global competi
