Sommario/riassunto

This study provides an overview of Bank investments in Early Childhood Development (ECD) from 2000-2013 within the Education, Health, Nutrition and Population, and Social Protection and Labor practices. The study summarizes trends in operational and analytical investments in early childhood, including lending and trust funded operations at the country, regional, and global levels. Findings are presented on the overall level of finance during this thirteen-year period, the number of ECD investments, and regional and sectoral trends. A series of case studies are presented to highlight lessons le
