Sommario/riassunto	Theory and Practice of Triple Helix Model in Developing Countries contributes to the expanding literature on ""triple helix"" innovation - focusing on developing countries. The book is based on practical cases and experiences from Africa, Latin America and Asia. Relevant experiences and best practices from developed countries are also examined. The book is presented as a response to the growing awareness about the need for policy shift from the traditional technology transfer practice to a policy position that is capable of providing a sustainable basis for innovation and te
