Sommario/riassunto	Most people believe that the right to privacy is inherently at odds with the right to free speech. Courts all over the world have struggled with how to reconcile the problems of media gossip with our commitment to free and open public debate for over a century. The rise of the Internet has made this problem more urgent. We live in an age of corporate and government surveillance of our lives. And our free speech culture has created an anything-goes environment on the web, where offensive and hurtful speech about others is rife. How should we think about the problems of privacy and free speech?

2. Record Nr.	UNISA996215582503316
