Vickers -- The cardiac system / Sheila Roberts -- The respiratory system / Elizabeth Akers -- The endocrine system / Julia Petty -- The digestive system and nutrition / Joanne Outteridge -- The renal system / Elizabeth Gormley-Fleming -- The reproductive systems / Ann L. Bevan -- The nervous system / Petra Brown -- The muscular system / Elizabeth Gormley-Fleming -- The skeletal system / Debbie Martin -- The senses / Joanne Outteridge -- The skin / Elizabeth Gormley-Fleming.
Sommario/riassunto	When caring for the well or ill child, recognising and responding to their anatomical and physiological differences is essential. Fundamentals of Children's Anatomy and Physiology provides child nursing students and registered nurses with a succinct but complete overview of the structure and function of the child's body, plus clinical applications throughout to demonstrate how the concepts relate to real-life nursing. Each chapter lists learning outcomes and includes clinical considerations, body maps, a range of high-quality illustrations

and test-your-knowledge questions. The book is also
