Sommario/riassunto

This book relates the experiences of the zanryu-hojin - the Japanese civilians, mostly women and children, who were abandoned in Manchuria after the end of the Second World War when Japan's puppet state in Manchuria ended, and when most Japanese who has been based there returned to Japan. Many zanryu-hojin survived in Chinese peasant families, often as wives or adopted children; the Chinese government estimated that there were around 13,000 survivors in 1959, at the time when over 30,000 "missing" people were deleted from Japanese family registers as "war dead". <P
