

1. Record Nr.	UNINA9910459954703321
Autore	Kachru Yamuna
Titolo	World Englishes in Asian contexts [[electronic resource] /] / Yamuna Kachru and Cecil L. Nelson
Pubbl/distr/stampa	Hong Kong, : Hong Kong University Press, 2006
ISBN	1-282-70741-8 9786612707414 988-220-364-7
Descrizione fisica	1 online resource (437 p.)
Collana	Asian Englishes today
Altri autori (Persone)	NelsonCecil L
Disciplina	427.95
Soggetti	English language - Variation - Asia English language - Social aspects - Asia English language - Variation - Foreign countries English language - Social aspects - Foreign countries Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; List of Illustrations; Series editor's preface; Preface; Acknowledgements; List of symbols and abbreviations; Introduction; Part I; Chapter 1 World Englishes today; Chapter 2 Conceptual framework; Chapter 3 Structural variation; Chapter 4 Contexts and identities; Chapter 5 Parameters of intelligibility; Part II; Chapter 6 World Englishes and language acquisition; Chapter 7 Standards, codification and world Englishes; Chapter 8 Creativity and innovations; Chapter 9 Teaching and testing world Englishes; Chapter 10 Teaching world English literatures; Part III Chapter 11 South Asian EnglishChapter 12 East Asian Englishes; Chapter 13 Southeast Asian Englishes; Chapter 14 African Englishes; Chapter 15 African-American Vernacular English; Part IV; Chapter 16 Researching grammar; Chapter 17 Dictionaries of world Englishes; Chapter 18 Code-mixing and code-switching; Chapter 19 Culture and conventions of speaking; Chapter 20 Culture and conventions of writing; Chapter 21 Genre analysis across cultures; Chapter 22 Power, ideology and attitudes; Conclusion: Current trends and future

directions; Notes; Glossary; Annotated bibliography; Additional Resources

Sommario/riassunto This is the first English-language book to focus on the electric rice cooker and the impact it has had on the lives of Asian people.

2. Record Nr.	UNINA9910556874703321
Autore	Szaro Pawel
Titolo	Musculoskeletal Radiology for Residents : Self-Assessment Questions / / by Pawel Szaro
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	9783030851828 9783030851811
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (393 pages)
Collana	Medicine Series
Disciplina	616.70757
Soggetti	Radiology Orthopedics Surgery Orthopaedics Malalties de l'aparell locomotor Radiografia mèdica Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Part 1. Trauma -- Upper extremity -- Lower extremity spine -- Axial skeleton -- Miscellanea -- Part 2. Non-traumatic lesions -- Tumours and tumour like lesions -- Arthritis -- Metabolic diseases -- Interventional radiology in the musculoskeletal system -- Part 3. Examinations -- Examination set 1 -- Examination set 2 -- Examination set 3.
Sommario/riassunto	This book allows residents and specialists in radiology to assess knowledge about musculoskeletal radiology. Most of the book's

questions, stemming from the author's experience of teaching residents in radiology at Sahlgrenska University Hospital in Gothenburg, Sweden, are very practical and often based on differential diagnosis, which is crucial in musculoskeletal radiology. Problem-based learning is useful in deep learning and allows a better understanding of pathological processes in the bones, joints, tendons, and muscles. The questions focus on clinical problems encountered during radiological examinations like MRI (the most fascinating and difficult one for residents), CT, ultrasound, or x-rays, and are intended to stimulate the daily evaluation of examinations. The book, enriched by videos as electronic supplementary material, is written for practitioners who evaluate examinations in musculoskeletal radiology. The information contained in the book is up-to-date and consistent with the results of the current scientific researches, which can be found under the answer to each question in the form of a concise summary. The current proposal will fill a gap in the radiological literature in comprehensive self-assessment of musculoskeletal radiology and can be used by residents and young specialists.
