Sommario/riassunto

Initially published in 1983, in association with the International Labour Organisation (ILO), this book is about the meaning, relevance and process of agrarian reform in contemporary developing countries. It includes seven detailed case studies - one each on Ethiopia, Peru, Chile, Nicaragua, Iran, Kerala, (India) and West Bengal (India). In all the cases, serious contemporary efforts were made to implement agrarian reform programmes and the case studies focus upon selected aspects of this reform process - origins, basic characteristics, problems of implementation and immediate consequences.
