

1. Record Nr.	UNINA9910460009003321
Titolo	Dental materials research [[electronic resource] /] / Haden D. Kaminski and Easton A. DuPois, editors
Pubbl/distr/stampa	New York, : Nova Science Publishers, Inc., c2009
ISBN	1-61728-361-4
Descrizione fisica	1 online resource (196 p.)
Collana	Dental science, materials and technology series
Altri autori (Persone)	KaminskiHaden D DuPoisEaston A
Disciplina	617.6/95
Soggetti	Dental materials Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Dental ceramics : a review of modern materials and technologies / Sarah Pollington -- Development of low-shrinkage dental composites in dentistry : a review of the trends and techniques applied / Mui Siang Soh and Adrian U.J. Yap -- Simultaneous fluorescence and reflection confocal microscopy study of living osteoblast bioenergetics as a tool for the design of surface topography of dental implants / Mercedes Salido, J. Ignacio Vilches-Perez and Jose Vilches -- Dental materials in daily pedodontics clinical practice / Marcela Marquezan and Daniela Procida Raggio -- Effects of methacrylates present in dental composite resins on HL-60 cell metabolism / G. Nocca ... [et al.] -- Comparison of antibacterial effects of dentin bonding agents in vitro / H. Sar Sancakli ... [et al.] -- Progress towards bone and tissue regeneration using PRGF technology / Eduardo Anitua, Gorka Orive and Isabel Andia -- Comparison of the effect of four non-metal posts on fracture resistance of endodontically treated teeth / Ezatollah Jalalian, Salma Nikooie and Saman Jomehri -- Differences in dentin permeability and its relevance to cytotoxicity / S.R. Grobler ... [et al.] -- Biocompatibility of dental materials : assessment of genetic damage and cellular death / Daniel Araki Ribeiro.
