Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Way to Water has two primary intentions: to trace the development of the nascent field of theological inquiry known as theoetics and to make an argument that theoetics provides both theological and practical resources for contemporary people of faith who seek to maintain a confessional Christian life that is also intellectually critical. Beginning with the work of Stanley Hopper in the late 1960's, and addressing the early scholarship of key theoetics authors like Rubem Alves and Amos Wilder, this text explores how theoetics was originally developed as a response to the American death.
