Sommario/riassunto	On December 11, 1954, Charles Patrick drove to downtown Birmingham to buy a Boy Scout uniform for his son. Christmas traffic around the downtown department stores was heavy, and Patrick circled unsuccessfully until at last a streetside spot opened up and he began to pull in. As he did so, he was cut off by a woman who ordered him out of the way, as she was the wife of a city police officer. Patrick pulled away, remarking, "Ma'am, he doesn't own the streets of Birmingham." Normal low-level urban hassle? Not in 1954 Birmingham, when the woman was white and Pa

Sommario/riassunto	<p>The purpose of this volume is to show how in this area the technology, creativity and inventiveness are the basis of new and encouraging results not only in the environmental field but also in the monitoring of xenobiotics of organic and inorganic origin in complex matrices. The final objective will always be on determining the fundamental parameters of interest to set up an analytical procedure, such as precision and trueness (that together give accuracy), the limits of detection and quantification, selectivity, and especially sensitivity, or attempting to increase this</p>
