Sommario/riassunto	This book revisits many aspects of current social science theories, such as actor-network theory and the French school of science and technology studies, to test how the theories apply in a specific situation, in this case after 1991 in the city of Cherepovets in Russia, home of Russia's second biggest steel producer, Severstal. Using political philosophy to analyse the down-to-earth details of the real techno-scientific problems facing the world, the book examines the role of things - and urban infrastructure in particular - in political change. It considers how the city's infrastructure,
