How Governments Can Help Increase Access to Finance; V. Conclusion; Appendix: Case Studies on Improving Small and Medium Enterprises' Access to Finance; Bibliography
Sommario/riassunto	This book's prime audience is government policy-makers. It provides a policy framework for governments to increase micro, small and medium enterprises' access to financial services?one which is based on empirical evidence from around the world. Financial sector policies in many developing countries often work against the ability of commercial financial institutions to serve this market segment, albeit, often unintentionally. The framework guides governments on how to best focus scarce resources on three things: ? developing an inclusive financial sector policy; ? building healthy financial ins
