Sommario/riassunto

Students of Akkadian will find this handy collection of basic information to be the ideal companion through their years of study. Though this handbook is not a replacement for the standard reference works, it summarizes all the basic resource materials needed for the study of Akkadian. Included are the following: miscellaneous helps, paradigms of nouns and verbs, a glossary of important proper nouns, an index of logograms, a sign list with complete sign values, and much more. What is new in this revised and expanded edition:—An expanded list of common abbreviations—A thorough bibliography of important reference works in ten categories, including websites—Part One: Additional and more thorough lists, including dialect information for conjunctions, prepositions, and particles—Part Two: Additional nominal and verbal paradigms—Part Three: Glossary expanded and updated, content thoroughly documented and cross-referenced—Part Four: Expanded list of logograms—Part Five: Complete list of graphic signs as found in Borger's *Mesopotamisches Zeichenlexikon*, tagged by his new numbering system, and cross-referenced to the Deimel system; sign information aligned with MZL for logographic values and with MZL and *Das akkadische Syllabar* for syllabic values; graphic sign images now included with the list of determinatives; two new indexes—Can now be used alongside all major grammars of Akkadian—A more attractive format—All data checked against the latest published reference works
