Sommario/riassunto	Many details in the inventory list of the texts found in the Judaeen Desert have altered since their initial publication by E. Tov in DJD XXXIX (2002) 27–114. Such changes were inserted in some twenty-five percent of the lines of the database, and this information is now presented to the public at the end of the publication procedure of the DJD series. The updating reflects corrections made to imprecisely recorded details, the data published in the last DJD volumes, inscribed archeological evidence not recorded previously, new fragments, changed names, new identifications and arrangements of fragments, updated bibliography, et cetera The volume also contains an updated version of the categorized list of biblical texts from the various sites in the Judaeen Desert.
