Sommario/riassunto	How can you help children with moderate to severe autism become more effective communicators? Discover the Visual Immersion System (VIS), a practical, research-based intervention framework that taps into

the strong visual processing skills many children on the spectrum have. Youa€TMll learn how to use readily available resourcesa€"from photos and symbols to apps and softwarea€"to create a customized system of visual supports that boost seven key communicative functions (see sidebar). For each of the functions, youa€TMll get comprehensive how-to guidance on choosing tools and materials, conductin
