

1. Record Nr.	UNINA9910460215103321
Titolo	Trichiasis surgery for trachoma : update of Trichiasis surgery for trachoma, the bilamellar tarsal rotation procedure and Final assessment of Trichiasis surgeons
Pubbl/distr/stampa	[Albany, New York] : , : World Health Organization, , [2013] ©2013
ISBN	92-4-069274-6
Edizione	[Second Edition / Electronic version.]
Descrizione fisica	1 online resource (72 pages) : illustrations
Disciplina	617.772
Soggetti	Eye - Surgery Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Update of Trichiasis surgery for trachoma, the bilamellar tarsal rotation procedure and Final assessment of trichiasis surgeons."
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Section One: Introduction -- The Anatomy of the Eye and the Eyelid -- Trachoma and its Effect on the Eye -- History and Examination for Upper Eyelid Trichiasis -- Indications for Eyelid Surgery -- Fitness of Patient for Surgery -- Facilities and Surgical Materials -- Sterilization -- Preparation -- Injecting Local Anaesthetic -- Surgical Procedure -- Postoperative Care -- Results -- Section Two: For Trainers: Introduction -- Final Assessment of TT Surgeons -- Checklist
Sommario/riassunto	The second edition of this manual combines and updates material contained in three previous manuals on bilamellar tarsal rotation procedure, Trabut procedure, and the final assessment of candidate trichiasis surgeons. This manual is designed to provide specific information for trachomatous trichiasis (TT) trainers who are training others to undertake surgery for entropion trachomatous trichiasis (TT). Other approaches are not addressed. The manual is divided into two parts. The first part covers specifics designed for training TT surgeon candidates, and serves as a resource document. The trainer can elect to have trainees read the material directly, use this manual as a guide for creating a training presentation, or use it in other ways to assist in the training. The manual contains both knowledge that should be imparted during training and a description of the skills that need to be

developed and assessed during practice and surgery sessions. The second part is designed ONLY for the trainers of the surgeon trainees and covers selection and final assessment of the trainees. -- Publisher

Sommario/riassunto

Thus Speaks Ishtar is a collection of essays about prophets and prophecy in the ancient Near East during the "Neo-Assyrian Period." This was the time when some of Israel's greatest prophets emerged, and we also have from the same general period a number of prophetic texts found on the site of the ancient Assyrian city of Nineveh. The book examines the basic idea of prophecy and how this is shaped by the way we study the subject, and it then presents a number of fresh insights on a range of prophetic topics. These include the relationship between Israelite and other forms of prophecy in Assyria and Egypt and the relationship between what prophets said and the written forms in which their words were passed on. Other topics of contemporary interest include what these prophetic texts have to say about the environment, the place of intercession in Israelite and Assyrian religion, and whether the message of the trailblazing Israelite prophets of the eighth century was basically about judgment and community ruin or about hope and community well-being.
