Sommario/riassunto	This report examines East Asia's energy future over the next two decades through two energy scenarios. It outlines the strategic direction of East Asia's energy sector to meet its growing energy demand in an environmentally sustainable manner, and presents a pathway of policy frameworks and financing mechanisms to get there. The report concluded that it is within the reach for East Asia to stabilize CO2 emissions by 2025, improve local environment, and enhance energy security, without compromising economic growth, through large-scale deployment of energy efficiency and low-carbon technologies.

Sommario/riassunto	Millennials mean business, and they are shaking up the workplace as they enter management roles for the very first time. They are tearing down the corporate ladder, communicating on the fly, and bringing play to work. Millennials are creative, big thinkers, and they will change the face of leadership-IF they can bridge the gap between the hierarchical management style of senior executives and the casual, more collaborative approach of their peers. Manager 3.0 is the first-ever management guide for Millennials. They will master crucial skills such as dealing with difficult people, delivering constructive feedback, and making tough decisions-while gaining insight into the four generations in the workplace and how they can successfully bring out the best in each. Packed with interviews and examples from companies like Zappos, Groupon, Southwest Airlines, and Google, Manager 3.0 will help these new managers enhance their unique talents while developing an effective leadership style all their own.
