Sommario/riassunto

This handbook encompasses a range of disciplines that underlie the field of peace education and provides the rationales for the ways it is actually carried out . The discipline is a composite of contributions from a variety of disciplines ranging from social psychology to philosophy and from communication to political science. That is, peace education is an applied subject which is practiced in differing ways, but must always be firmly based on a range of established empirical disciplines. The volume is structured around contributions from expert scholars in various fields that
