Patient safety in American health care: regulatory models; 15. Responding to patient harm: Patient safety initiatives in Australia; Untitled; Index</p>
Sommario/riassunto	<p>Patient safety is an issue which in recent years has grown to prominence in a number of countries' political and health service agendas. The World Health Organisation has launched the World Alliance for Patient Safety. Millions of patients, according to the Alliance, endure prolonged ill-health, disability and death caused by unreliable practices, services, and poor health care environments. At any given time 1.4 million people worldwide are suffering from an infection acquired in a health facility. Patient Safety, Law Policy and Practice explores the impact of legal systems</p>
