

1. Record Nr.	UNINA9910460331203321
Titolo	Valuable broadleaved forests in Europe [[electronic resource] /] / edited by Heinrich Spiecker ... [et al.]
Pubbl/distr/stampa	Leiden ; ; Boston, : Brill, 2009
ISBN	1-282-94927-6 9786612949272 90-04-18823-1
Descrizione fisica	1 online resource (276 p.)
Collana	European Forest Institute research report, , 1238-8785 ; ; v. 22
Altri autori (Persone)	SpieckerHeinrich
Disciplina	634.9/5
Soggetti	Forests and forestry - Europe Timber - Europe Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Preliminary Material / H. Spiecker , S. Hein , K. Makkonen-Spiecker and M. Thies -- 1. Introduction / H. Spiecker , S. Hein , K. Makkonen-Spiecker and M. Thies -- 2. State Of The Art / H. Spiecker , S. Hein , K. Makkonen-Spiecker and M. Thies -- 3. Prerequisites For Growing Valuable Broadleaves / H. Spiecker , S. Hein , K. Makkonen-Spiecker and M. Thies -- 4. Management Of Valuable Broadleaves / H. Spiecker , S. Hein , K. Makkonen-Spiecker and M. Thies -- 5. Environment And Society / H. Spiecker , S. Hein , K. Makkonen-Spiecker and M. Thies -- 6. Conclusions / H. Spiecker , S. Hein , K. Makkonen-Spiecker and M. Thies -- Appendices / H. Spiecker , S. Hein , K. Makkonen-Spiecker and M. Thies.
Sommario/riassunto	Ecological and economic considerations recently increased the interest in growing valuable broadleaved tree species. Although the demand for valuable timber is growing, and there is a notable interest among forest owners and farmers to grow valuable broad leaved tree species, the current level of knowledge about these species is insufficient. More information on how to grow valuable broadleaved species to obtain high-quality wood and more research on new options for forest management is needed. This book covers various relevant aspects of

growing valuable broadleaved trees in an interdisciplinary approach. The disciplines are represented by a consortium of experts and professionals in different disciplines of forest sciences and related areas. They describe the state of the art in their research fields.
