| Sommario/riassunto      | <span><span><span>These case studies illustrate the mutual, reciprocal impact of technology on one hand and the social sciences, including government policy, on the other. The text suggests that advanced technology is not always compatible with the different settings in emerging societies with other geographic, economic, social, cultural, and political environments.</span></span></span>                                                                                                                                                                                                                                                               |
