	Sommario/riassunto	Deconstruction -- a mode of close reading associated with the contemporary philosopher Jacques Derrida and other members of the ""Yale School"" -- is the current critical rage, and is likely to remain so for some time. Reading Deconstruction / Deconstructive Reading offers a unique, informed, and badly needed introduction to this important movement, written by one of its most sensitive and lucid practitioners. More than an introduction, this book makes a significant addition to the current debate in critical theory.G. Douglas Atkins first
