Sommario/riassunto	In the fourth edition of this accessible and comprehensive book, Bryan Lask and Rachel Bryant-Waugh build on the research and expertise of the previous three editions. First published in 1993, this was the first book of its kind to explore eating disorders in children and young adolescents, a population that is very different from those in their late teens and adulthood. The contributors' experience and knowledge have increased and the field has moved forward over the past 20 years. This fully revised edition offers a distillation of current information relating to the younger

Sommario/riassunto	Dissatisfaction with the present can cause people to gaze nostalgically back to an idealized past; that nostalgia pervades contemporary rhetoric. In lamenting the 'degeneracy' of present-day America, social and literary critics as well as contemporary novelists often choose as

their scapegoat the women's movement and its increasing influence. Doane and Hodges show us how these social observers seek to 'reinstate' America and American values in ways that, overtly or covertly, do battle with the feminist movement for control of rhetoric, the power of language.
