Sommario/riassunto	Does Marxism possess an ethical impulse? Is there a moral foundation that underpins the Marxist critique of capitalism and the vision for social progress? The essays collected in Constructing Marxist Ethics:

Critique, Normativity, Praxis argue that there is such an ethical grounding for Marxist theory. The essays, each from different vantage points, construct what a Marxian ethics should look like: what kind of values should be at the heart of the Marxian enterprise. Contributors are: Dan Albanese, Paul Blackledge, Bob Cannon, Tony Burns, Ian Fraser, Ruth Groff, Wadood Hamad, Christoph Henning, Peter Hudis, Lauren Langman, George E. McCarthy, Sean Sayers, Michael J. Thompson, and Lawrence Wilde.
