Note generali	"Furanyl-fentanyl, acryl-fentanyl, acetyl-fentanyl, carfentanil, 3-methylfentanyl and synthetic opioids."
Sommario/riassunto	<p>"In the last several years, U.S. Law Enforcement has seen a dramatic increase in the availability of dangerous synthetic opioids. A large majority of these synthetic opioids are structural derivatives of the synthetic drug "fentanyl." Fentanyl is a synthetic opioid currently listed as a Schedule II prescription drug that mimics the effects of morphine in the human body, but has potency 50-100 times that of morphine"--Page 2.</p> <p>"There is a significant threat to law enforcement personnel, and other first responders, who may come in contact with fentanyl and other fentanyl-related substances through routine law enforcement, emergency or life-saving activities"--Page 2.</p>
