

1. Record Nr.	UNINA9910460567003321
Autore	Hedaya Mohsen A.
Titolo	Basic pharmacokinetics // Mohsen A. Hedaya
Pubbl/distr/stampa	Boca Raton : , : CRC Press, , 2012
ISBN	0-429-25125-4 1-4398-5075-5
Edizione	[Second edition.]
Descrizione fisica	1 online resource (581 p.)
Collana	CRC Press Pharmacy Education Series
Disciplina	615/.7
Soggetti	Pharmacokinetics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Front Cover; Contents; Preface; Author; Chapter 1: Introduction to Pharmacokinetics; Chapter 2: Review of Mathematical Fundamentals; Chapter 3: Drug Pharmacokinetics Following a Single IV Bolus Administration: Drug Distribution; Chapter 4: Drug Pharmacokinetics Following a Single IV Bolus Administration: Drug Clearance; Chapter 5: Drug Pharmacokinetics Following a Single IV Bolus Administration: The Rate of Drug Elimination; Chapter 6: Drug Absorption Following Extravascular Administration: Biological, Physiological, and Pathological Considerations Chapter 7: Drug Absorption Following Extravascular Administration: Molecular and Physicochemical Considerations Chapter 8: Drug Absorption Following Extravascular Administration: Formulation Factors; Chapter 9: Drug Pharmacokinetics Following Single Oral Drug Administration: The Rate of Drug Absorption; Chapter 10: Drug Pharmacokinetics Following Single Oral Drug Administration: The Extent of Drug Absorption; Chapter 11: Bioequivalence; Chapter 12: Drug Pharmacokinetics during Constant Rate IV Infusion: The Steady-State Principle; Chapter 13: Steady State during Multiple Drug Administration Chapter 14: Renal Drug Excretion Chapter 15: Metabolite Pharmacokinetics; Chapter 16: Nonlinear Pharmacokinetics; Chapter 17: Multicompartment Pharmacokinetic Models; Chapter 18: Drug Pharmacokinetics Following Administration by Intermittent Intravenous

Infusion; Chapter 19: Pharmacokinetic-Pharmacodynamic Modeling; Chapter 20: Noncompartmental Approach in Pharmacokinetic Data Analysis; Chapter 21: Physiological Approach to Hepatic Clearance; Chapter 22: Physiologically Based Pharmacokinetic Models; Chapter 23: Therapeutic Drug Monitoring Chapter 24: Pharmacokinetics in Special Patient Populations Chapter 25: Pharmacokinetic Drug-Drug Interactions; Chapter 26: Pharmacogenetics: The Genetic Basis of Pharmacokinetic and Pharmacodynamic Variability; Chapter 27: Applications of Computers in Pharmacokinetics; Chapter 28: The Companion CD; Solutions for the Practice Problems; Back Cover

Sommario/riassunto

Introduction to Pharmacokinetics
Review of Mathematical Fundamentals
Drug Pharmacokinetics Following a Single IV Bolus Administration: Drug Distribution
Drug Pharmacokinetics Following a Single IV Bolus Administration: Drug Clearance
Drug Pharmacokinetics Following a Single IV Bolus Administration: The Rate of Drug Elimination
Drug Absorption Following Extravascular Administration: Biological, Physiological, and Pathological Considerations
Drug Absorption Following Extravascular Administration: Molecular and Physicochemical Considerations
Drug Absorption Following Extravascular Administration: Form
