Sommario/riassunto	This volume represents the results of the Sixteenth International Conference for Philosophy, Psychiatry and Psychology, entitled "Neuroscience, Logic and Mental Development". This edited collection brings together selected plenary and keynote papers from the conference, and represents a major contribution to an interdisciplinary dialogue in mental health through the use of new philosophical tools, emerging from neuroscience, clinical psychology, phenomenology and epistemology. The papers gathered in this volume are divided into four parts, depending on their disciplinary paradigm. The papers inc
