Sommario/riassunto	A bronze inscription in the public library of Bridgend calls Richard Price ""Philosopher. Preacher. Actuary. Cfaill Dynolryw"" [Friend of Humanity]. He was all these and something more. Son of a Welsh Presbyterian of Calvinistic leaning, Richard Price was educated for the ministry. That he belonged in the best of Dissenting tradition was exhibited at an early age in his own interest in Arianism, an interest fostered by the academy at Pentwyn where he studied. Here he met the works of Samuel Clarke, which thoroughly aroused the ire of his father.Richard Price did not cringe in the face of hosti

Sommario/riassunto

This book brings together a series of chapters that provides updated information on adaptation practices against climate change in agriculture and livestock. Information on some new aspects like conservation of carnivorous plants, climate-smart millets production, advances in genomic interventions for climate resilient crops, perceptions on disease and pests under changing climate, role of neglected crops in climate resilient agriculture, nanotechnology in sustainable agriculture, use of crop wild relatives for developing climate resilient crops have been discussed. It also presents detailed information carbon sequestration practices and green consumption behaviour for sustainable development. The last chapter of book mentions about an innovative agronomic technique under rainfed conditions for sustainable yield advantage in soybean crop.
