Nota di contenuto	Frontmatter -- Contents -- Foreword -- Introduction -- Rescue by negotiations? Jewish attempts to negotiate with the Nazis -- Forms of Jewish resistance during the Holocaust -- Zionism, the Holocaust, and the road to Israel -- Notes -- Index -- Backmatter
Sommario/riassunto	The theme of this book is the gradual emergence of the Jewish people from total political powerlessness - a development stretching over nearly 100 years and culminating in the consolidation in the State of Israel. Ironically, Professor Bauer demonstrates, events during this period stemmed in part from a belief in the power of the international Jewish community that never existed - but that motivated both the Germans and, after the war, the British. This is a brief but absorbing study by one of the world's great experts on the Holocaust, who has drawn on a huge body of material to depict one of the unforgettable events in recent history from an arresting and unfamiliar point of view.
