

1. Record Nr.	UNINA9910460713103321
Autore	John J. A.
Titolo	Statistical thinking in business // by J. A. John, D. Whitaker and D.G. Johnson
Pubbl/distr/stampa	Boca Raton, FL : , : Chapman and Hall/CRC, an imprint of Taylor and Francis, , 2005
ISBN	0-429-12349-3 1-4200-5716-2
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (400 p.)
Disciplina	658.4/033
Soggetti	Mathematical statistics BUSINESS & ECONOMICS / Industrial Management BUSINESS & ECONOMICS / Management Science BUSINESS & ECONOMICS / Management BUSINESS & ECONOMICS / Organizational Behavior Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Front cover; CONTENTS; PREFACE; Chapter 1. Variation; Chapter 2. Problem Solving; Chapter 3. Looking at Data; Chapter 4. Modelling Data; Chapter 5. Attribute Data; Chapter 6. Sampling; Chapter 7. Estimation; Chapter 8. Regression Analysis; Chapter 9. Multiple Regression; Chapter 10. Forecasting; Chapter 11. Statistical Process Control; Chapter 12. Control Charts; Chapter 13. Improvement Strategies; Postscript; Appendix. Statistical Tables; Bibliography and Further Reading; Back Cover
Sommario/riassunto	Business students need the ability to think statistically about how to deal with uncertainty and its effect on decision-making in business and management. Traditional statistics courses and textbooks tend to focus on probability, mathematical detail, and heavy computation, and thus fail to meet the needs of future managers. Statistical Thinking in Business, Second Edition responds to the growing recognition that we must change the way business statistics is taught. It shows how statistics is important in all aspects of business and equips students

with the skills they need to make sensible use of data and other information. The authors take an interactive, scenario-based approach and use almost no mathematical formulas, opting to use Excel for the technical work. This allows them to focus on using statistics to aid decision-making rather than how to perform routine calculations. *New in the Second Edition.*
