Sommario/riassunto	This volume brings together papers from academics and practitioners on specific issues related to mobile participation in the context of development, originally presented at the fourth conference on Mobile Communications for Development (M4D 2014). M4D research focuses on understanding the use of mobile technologies and services, and how they directly or indirectly address socio-economic challenges. In development, participation suggests that stakeholders can partake in the processes that will benefit them, and this concept has been much-studied by scholars who sought to understand its meaning
