Sommario/riassunto	With essays by well-known adoption practitioners and researchers who source empirical research and practical knowledge, this volume addresses key developmental, cultural, health, and behavioral issues in the transracial and international adoption process and provides recommendations for avoiding fraud and techniques for navigating domestic and foreign adoption laws. The text details the history, policy, and service requirements relating to white, African American, Asian American, Latino and Mexican American, and Native American children and adoptive families. It addresses specific problems faced by adoptive

families with children and youth from China, Russia, Ethiopia, India, Korea, and Guatemala, and offers targeted guidance on ethnic identity formation, trauma, mental health treatment, and the challenges of gay or lesbian adoptions
