Global wage trends: Methodological issues; Appendix II. Definitions, concepts and data issues ; Appendix III. Changes in household income inequality ; Appendix IV. Decomposing wage gaps ; Notes; Bibliography

Sommario/riassunto

The Global Wage Report analyses the evolution of real wages around the world, giving a unique picture of wage trends and relative purchasing power globally and by region. The 2014/15 edition examines the link between wages and inequality at the household level.
